A Thought for the Business Man

Salesmanship ain't the science of sellin' folks somethin' they don't want. It's the science of teaching 'em to want what you've got to sell.

∧ ND VELVET is its own best salesman. in teaching smokers to want it.

It isn't possible for an advertiser to print or a salesman to describe aroma, smoothness and mildness. But you won't need any descriptions after your first pipeful of VELVET.

For VELVET has that natural mildness and coolness which belong only to the choicest Kentucky Burley tobacco.

> And then VELVET is brought to its full, mellow perfection by two years natural ageing. That is what gives VELVET its appeal to pipe smokers—its smoothness.
